SAFETY ON YOUR GRIP

Welding gloves made from dyed mustard split leather, featuring a multi-layered palm construction for enhanced heat and abrasion protection. The palm is lined with synthetic non-woven material for improved insulation and comfort. Heat resistant up to 350°C for 15 seconds, making them suitable for heavy-duty welding and high-temperature metal handling applications.

F834
SAFETY GLOVES

BUILT FOR TOUGH ENVIRONMENTS

Industry application:

- Welding & Fabrication
- Foundry & Casting
- Heavy Engineering
- Refrigeration & Cold Storage Handling
- Shipping industry

Industrial Maintenance

SIZE & STYLE

Size: **9-11**
Color: **Palm- Mustard**
Back- Mustard
Cuff- Mustard
